

COMUNICATO STAMPA

INTESA SANPAOLO: L'ANALISI DELL'EBA SUI DATI DI SETTEMBRE 2011 CONFERMA L'ADEGUATEZZA PATRIMONIALE DEL GRUPPO

Torino, Milano, 8 dicembre 2011 – Intesa Sanpaolo prende atto delle comunicazioni odierne dell'EBA e dell'autorità di vigilanza nazionale in merito all'esercizio sul capitale, che evidenziano i seguenti risultati per Intesa Sanpaolo.

L'esercizio sul capitale proposto dall'EBA e concordato dal Consiglio il 26 ottobre 2011 richiede alle banche un rafforzamento del proprio capitale attraverso la costituzione di un buffer temporaneo rispetto alle esposizioni verso gli emittenti sovrani per tener conto delle attuali condizioni di mercato. Richiede inoltre un buffer che porti il coefficiente Core Tier 1 al 9% entro la fine di giugno 2012. L'eventuale fabbisogno di capitale è stato calcolato in base ai dati di settembre 2011. Non sono previste variazioni dell'importo del buffer di capitale relativo al rischio sovrano.

71 banche in tutta Europa, compresa Intesa Sanpaolo, hanno partecipato all'esercizio sul capitale, che ha l'obiettivo di creare un buffer straordinario e temporaneo per fronteggiare la preoccupazione dei mercati per il rischio sovrano e gli altri rischi creditizi collegati all'attuale difficile fase congiunturale. Questo buffer non ha l'obiettivo di coprire perdite causate dal rischio sovrano, bensì di assicurare i mercati in merito alla capacità delle banche di resistere a una serie di situazioni di shock mantenendo un capitale adeguato.

L'esercizio sul capitale condotto dall'EBA, in cooperazione con l'autorità nazionale competente, ha determinato che Intesa Sanpaolo soddisfa il criterio del 9% relativo al coefficiente Core Tier 1 dopo la rimozione dei filtri prudenziali sulle esposizioni sovrane nel portafoglio disponibile per la vendita (AFS) e la valutazione prudente, che rispecchia gli attuali prezzi di mercato, delle esposizioni sovrane nel portafoglio relativo a strumenti detenuti fino a scadenza (HTM) e in quello relativo ai crediti (L&R).

La metodologia alla base dell'esercizio sul capitale è stata definita dall'EBA prima di questa comunicazione allo scopo di assicurare un'applicazione uniforme a tutte le banche europee partecipanti all'esercizio.

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and/or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

option 1

(1) It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination represent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

(2) The country identifies the reference entity single name of the CDS and other contracts.

(3) Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
