

## **ISP - the first bank to obtain the UNI CEI EN 16001 certification related to the Energy Management System**

ISP has implemented several activities aimed at saving energy, promoting energy efficiency, reducing consumption and favouring use of renewable energy. For its commitment it was the first bank to obtain the UNI CEI EN 16001 certification related to the Energy Management System (SGE) for 160 sites (branches and buildings).

The recognition, awarded the last June, is in addition to the UNI EN ISO 14001 certification related to the Environmental Management System (SGA) obtained in 2005.
